Foot Levelers - over 70 years of providing more comfort and less pain.

2

FootLevelers.com | [f](#) [t](#) [v](#)

Custom-Made vs. Over-the-Counter Orthotics

Custom orthotics are far superior to generic or off-the-shelf inserts. They're custom-made to easily slide into your shoes and support the unique shape of your feet. Foot Levelers custom orthotics are unique because they support all three arches of the foot. By balancing the feet, Foot Levelers orthotics help reduce pain and improve performance throughout the body.

FOOT LEVELERS

INMOTION+™

SCIENCE MEETS PERFORMANCE™

HIGHEST SHOCK ABSORPTION AND PROPULSION

Unparalleled, stand alone orthotic offering **47% more shock absorption** and **130% more propulsion** than our original InMotion orthotic.

FAR INFRARED TOP COVER

Far Infrared Rays (FIR) redirects the body's natural energy which can enhance muscle elasticity and performance, stimulate circulation, boost energy, and relieve muscle fatigue.

TEMPERATURE CONTROL

State-of-the-art materials regulate temperature to help keep feet cool, comfortable, odor-free.

DURABILITY

Proprietary & innovative fabric designed for enhanced durability.

What Orthotics Do For Your **Body**

Foot Levelers custom orthotics were developed to improve your comfort level. Custom orthotics also help reduce low back pain, hip pain, and even neck pain. Learn more about each of these conditions and how Foot Levelers can help you live a pain-free lifestyle.

There are many possible reasons for **low back pain**, but spinal strain and postural fatigue account for about **70%** of cases not caused by more serious conditions.

LOW BACK PAIN

The sacroiliac (or SI) joints are the link between your spinal column and pelvis. They help absorb damaging shock forces, and they also help stabilize the body and transmit weight to the lower limbs.

SACROILIAC JOINT PAIN

There is no single cause for painful knee joints. But there are generally 2 types of contributing factors: traumatic and chronic. Your doctor will help determine the cause of your knee pain.

KNEE PAIN

Leg length inequality (LLI) can cause pressure, stress, and pain in your knees, thighs, hips, pelvis, and spine.

SHORT LEG

What Orthotics Do For Your Feet

The pain you feel in your feet is debilitating and prevents you from living life to its fullest. Foot Levelers custom orthotics offer relief from some of the most common foot conditions, including plantar fasciitis and metatarsalgia. Foot Levelers orthotics are a great solution if you're experiencing foot pain.

When the foot's arches collapse, they no longer support the body properly. Pronated, or flat feet are also less shock-absorbent, creating extra stress on the bones, muscles, ligaments, and tendons of the entire body.

FLAT FEET

The plantar fascia is the soft, springy tissue on the underside of the foot. With injury, wear-and-tear, or age, a painful, ongoing condition may result: plantar fasciitis.

PLANTAR FASCIITIS

Metatarsalgia is pain in the ball of the foot. The soft, springy tissue beneath the foot is the support system for bones. With injury, wear-and-tear, or age, tissue deteriorates. Arches flatten, and toes may begin to crowd one another.

METATARSALGIA

If your ankle frequently "gives way" while walking or during activity, or if you've suffered from multiple sprains, you may have chronic ankle instability.

CHRONIC ANKLE INSTABILITY

Running to Recovery

In 2019, I was training to run the Foot Levelers Blue Ridge Marathon when I went for a casual ride on my motorcycle and was suddenly struck by an impaired driver, almost completely amputating my lower right leg. My leg was successfully reattached, and after eight surgeries, I was back with Foot Levelers, excited and on my way to preparing to finish the Half Marathon in 2021.

Running has been a big motivator in my recovery. Foot Levelers was already making an impact because I was using their custom orthotics prior to the injury. My mechanics were in position where I could enjoy running again.

Working with my doctors I felt that I could safely prepare to run the half marathon comfortably. I didn't want to do it without the support of Foot Levelers.

On April 17, 2021, I was able to complete the Blue Ridge Half Marathon, beating my finish time goal, and receiving the award for being first in my age group!

Captain Todd Reighley
Firefighter-EMS

What are others saying?

Dr. Kurt Juergens

“Foot Levelers, Inc knocked it out of the park...

...with the debut of their newest product, the InMotion+™ orthotic, and here is why! With the addition of the new InMotion+, Foot Levelers has produced a state-of-the-art orthotic, scientifically designed to maximize performance.

The new InMotion+ orthotic is revolutionary. Not only does it provide foundational support through its patented three arch support, but it includes technology and science that truly enhances performance, reduces impact and aids in recovery.”

Dr. Kurt A. Juergens, DC, CCSP

“As a long-time distance runner....

...I have tried many “over-the-counter”, “one-size-fits-all” inserts, but none of them compare to the InMotion+ custom orthotics that were handmade for my feet specifically.”

Jordan M.

“I was experiencing severe knee pain....

...and loss of function. After wearing Foot Levelers custom orthotics, my pain has been almost completely removed and I can squat again with no pain or loss of strength!”

Shane F.

STEP 01

Choose shoe style

We have organized our custom orthotics into categories based on shoe **type**.

Shoes with removable inserts

Full Length orthotics offer support in shoes with laces where the factory lining can be removed.

Shoes **without removable liners** and **tight-fitting** shoes –

Dress Length orthotics are ideal for shoes where the toe box is narrow and cannot accommodate a Full Length orthotic due to the width.

Flats and 1" heels

The 5th Avenue 1" is specifically designed for heels 1" or less.

Heels between 1" and 2"

3/4 Dress orthotics are specifically designed for tighter-fitting dress shoes where the factory lining cannot be removed.

The 5th Avenue 2" is designed for heels between 1" and 2".

STEP 02

Choose top cover

Top covers for your custom orthotics should be selected based on your **activity level**.

ACTIVE TOP

THE SMART ORTHOTIC

Keeps Feet Dry and Comfortable Year-Round

Active custom orthotics adapt to temperature or moisture changes to help keep feet comfortable and dry—regardless of the outside conditions. Features a moisture-resistant Cambrelle® top to help wick away moisture all day long.

Active orthotics are designed for 'active' people like runners, hikers, walkers, etc.

COMFORT TOP

TAKING COMFORT TO THE NEXT LEVEL

Extra Cushioning in Every Step

The soft TechCel™ comfort top provides maximum comfort for those on their feet more than 50% of the day.

Comfort orthotics are perfect for those who stand for extended periods.

LUXURY TOP

THE TRUE DEFINITION OF LUXURY

Top-of-the-Line Comfort and Durability

Embrace the ultimate in support with Luxury custom orthotics. Lambson Leather™ top offers premium durability with style.

Luxury orthotics are great for those who wear dress shoes all day long.

TOUGH TOP

NOT JUST TOUGH, EXTRA TOUGH

Heavy-Duty Support

Designed to provide extra durability, Tough custom orthotics feature a rugged leather top. They are also moisture resistant to help repel moisture.

Tough orthotics are for those who are very hard on their footwear.

Good Enough?

When it comes to your health, “good enough”
may be anything but.

Generic

✗ Generic orthotics typically only support one arch and may not maintain the structure of the plantar vault. This can create problems in other parts of the body, such as painful stress in the low back and neck.

✓ Foot Levelers custom-made orthotics, however, are built with the **3 Arch Advantage™** and help support the finer points of the body by correcting all three arches.

Prescription

By addressing all three arches, our orthotics help **reduce pain** throughout the Kinetic Chain and improve **balance, proprioception and physical performance.**

5 REASONS

TO USE FOOT LEVELERS CUSTOM ORTHOTICS

1

Easy, proven conservative care.

Foot Levelers orthotics are proven to reduce Low Back Pain by 34.5%. Low back pain is the #1 cause for missed work, and is a leading cause of the current opioid crisis.

2

Create a Symmetrical Foundation

The feet are the body's foundation. Foot dysfunction can cause problems throughout the rest of the body.

3

Dynamic Function

Your balance and the way you walk are improved by wearing Foot Levelers orthotics.

4

Improved Performance

Studies show Foot Levelers orthotics help increase drive distance on the golf course and reduce pain in those who stand all day.

5

Heel Strike Shock Reduction

Innovative materials absorb shock, which helps reduce pain and discomfort caused by heel strike while walking.
