handmade, high-quality, the **hallmark of excellence.**

Foot Levelers has been providing more comfort and less pain for over 70 years.

5 REASONS

TO USE FOOT LEVELERS CUSTOM ORTHOTICS

1

Easy, proven conservative care.

Foot Levelers orthotics are proven to reduce Low Back Pain by 34.5%.[1] Low back pain is the #1 cause for missed work, and is a leading cause of the current opioid crisis.

2

Create a Symmetrical Foundation

The feet are the body's foundation. Foot dysfunction can cause problems throughout the rest of the body.

3

Dynamic Function

Your balance and the way you walk are improved by wearing Foot Levelers orthotics.

4

Improved Performance

Studies show Foot Levelers orthotics help increase drive distance on the golf course and reduce pain in those who stand all day.[2]

5

Heel Strike Shock Reduction

Innovative materials absorb shock, which helps reduce pain and discomfort caused by heel strike while walking.

What are others saying?

“What impresses me...

...about [Foot Levelers] products is how amazingly helpful they have been in my recovery. I not only avoided surgery, but I am able to walk and run as much as I want without any foot pain.”

-Ultramarathoner Thor Johansen

“I have been using Foot Levelers...

...custom orthotics personally and professionally for over 15 years. It has helped me personally because it allows me to perform at my best knowing that I have proper support. My patients absolutely love their stabilizers because the proof is in the results. They feel better, perform at a higher level and best of all it helps them retain their adjustments longer. Foot Levelers is the only company I trust for my patients.”

- Dr. Steven Loniewski

“With my Foot Levelers functional orthotics...

...I can now run up and down the halls in my office on concrete floors, get up and down out of my chair and perform my normal duties as an Office Manager without foot, knee, ankle, leg and lower back pain. My feet no longer hurt and my legs, thighs and lower back have regained great muscle strength and tone. I do not miss a day without my orthotics.”

- Toni B. Anniston, AL

Tell Us Your Story!

Good Enough?

When it comes to your health, "good enough" may be anything but.

Generic orthotics typically only support one arch and may not maintain the structure of the plantar vault. This can create problems in other parts of the body, such as painful stress in the low back and neck.

Foot Levelers custom-made orthotics are built with the **3 Arch Advantage**® and help support the finer points of the body by correcting all three arches.

By addressing all three arches, our orthotics help **reduce pain** throughout the Kinetic Chain and improve **balance, proprioception and physical performance.**

When the foot hits the ground, everything changes.®

What's Your Shoe Style?

Orthotic **Feature Definitions**

ZORBACEL®
Absorbs damaging shock at heel strike.

STANCEGUARD™
Provides variable firmness, flexibility and control at midstance.

PROPACEL™
Provides a propulsive boost at toe-off, helping to reduce fatigue.

MAGNET SYSTEM
May enhance your energy, edge and performance. *Do not use if you are wearing a pacemaker or electrical implant of any kind, or if you are pregnant.*

MOISTURE WICKING
Helps absorb moisture and perspiration to control odor and increase comfort.

WATERPROOF
These products are better able to stand up to moisture and are recommended for patients who live or work in wet and humid environments.

MPAX® TECHNOLOGY
Proprietary, state-of-the-art material is soft, breathable and flexible at rest, but instantly absorbs up to 90% of energy upon impact.

MPAX® PRO
Innovative mid-layer material, infused with dynamic foam technology to reduce and redirect shock away from the foot; maximizes rebound for increased stride distance and to save energy at toe-off.

FAR INFRARED TECHNOLOGY (FIR)
Redirects energy back into the body to help enhance muscle elasticity and performance, stimulate circulation, boost energy and relieve muscle fatigue.

GAIT CYCLE SYSTEM® (GCS)
Only available from Foot Levelers, the GCS is a system comprised of Zorbacel® for shock absorption at heel strike, Stanceguard™ for variable support at midstance, and Propacel™ for a propulsive boost at toe-off.

GAIT CYCLE SYSTEM EXTREME® (GCS-X)
Maximum support and protection from heel strike to toe-off with additional Zorbacel® and Propacel™ layers.

DYNAMIC RESPONSE SYSTEM™ (DRS)
Proprietary arch material acts like a suspension system and enhances stability in all 3 arches by responding to variable loads and uneven terrain.

DYNAMIC RESPONSE SYSTEM EXTREME™ (DRS-X)
The benefits of DRS plus additional shock absorption in the heel provides greater comfort, better protection and improved performance.

XP3® ARCH ADVANTAGE TRAIN FOOT LEVELERS®

Elevate your workout routine with our XP3® Train orthotic! Designed with exceptional shock absorption properties and enhanced propulsion. Our XP3® Train features a resilient, military-grade top cover for unparalleled durability.

MPAX® Pro Technology maximizes rebound for increased stride distance and saves energy at toe-off

MPAX® Technology absorbs up to 90% of energy upon heel impact

Dynamic Response System Extreme™ provides additional shock absorption in the heel, for greater comfort, better protection, and improved performance

ITEM 0913104

Keep on the move with our thinnest and lightest custom orthotic, the XP3® Run. Popular among athletes, it delivers superior shock absorption and support, setting the stage for extreme endurance and high-activity pursuits.

XP3® ARCH ADVANTAGE RUN FOOT LEVELERS®

Perfect for minimalistic shoes, tight-fitting athletic footwear.

Flexible perforated top

MPAX® Technology absorbs up to 90% of energy upon heel impact

53.2% lighter than any of our other orthotics

ITEM 0913101

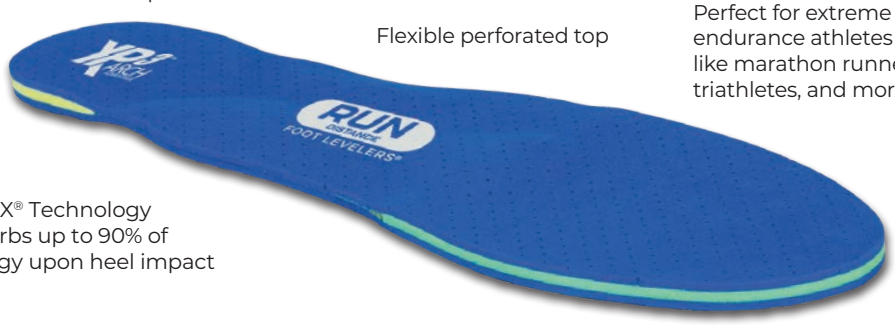

XP3 ARCH ADVANTAGE RUN DISTANCE FOOT LEVELERS®

Take it to the next level with the XP3® Run Distance, our most flexible orthotic with extreme shock absorption and propulsion. Expertly engineered to redirect shock away from the body and maximize rebound at toe-off, this orthotic enhances endurance, making it a must-have for extreme athletes.

Lightweight materials for maximum performance

Flexible perforated top

Perfect for extreme endurance athletes like marathon runners, triathletes, and more

MPAX® Technology absorbs up to 90% of energy upon heel impact

MPAX® Pro Technology maximizes rebound for increased stride distance and saves energy at toe-off

ITEM 0913103

Introducing the XP3® Field, an orthotic custom-designed for outdoor sports enthusiasts. Created to fit into a field shoe or cleat, this orthotic aims to boost power, speed, and stability. Its superior shock absorption feature provides safeguarding against hard ground impacts, while its unique three-arch support enhances the biomechanics of the kinetic chain for an optimal athletic experience.

XP3 ARCH ADVANTAGE FIELD FOOT LEVELERS®

Durable, moisture-resistant top cover

Enhanced stability in all three arches by responding to variable loads and uneven terrain

MPAX® Technology absorbs up to 90% of energy upon heel impact

Propacel® provides a propulsive boost at toe-off, helping to reduce fatigue

ITEM 0913105

XP3 ARCH ADVANTAGE GOLF FOOT LEVELERS®

Elevate your golf game with the XP3® Golf orthotic, Ideal for golfers at all levels, it enhances precision drives and promotes optimal body alignment while reducing fatigue.

Moisture-wicking Dri-Brelle top cover keeps feet cool and comfortable

Helps wearer hit golf ball 9-15 yards farther

Helps improve your body's alignment & reduces fatigue*

Increases club head velocity 3-5 mph

***Contains magnets.** Do not use if you are wearing a pacemaker or electrical implant of any kind, or if you are pregnant.

ITEM 0910701

Ace your performance with the XP3® Court! The anti-skid base makes it great for quick lateral movements. This orthotic is ideal for enthusiasts and athletes engaged in court sports such as pickleball, tennis, basketball, volleyball, and more.

XP3 ARCH ADVANTAGE COURT FOOT LEVELERS®

Moisture-wicking Dri-Brelle top cover keeps feet cool and comfortable

MPAX® Technology absorbs up to 90% of energy upon heel impact

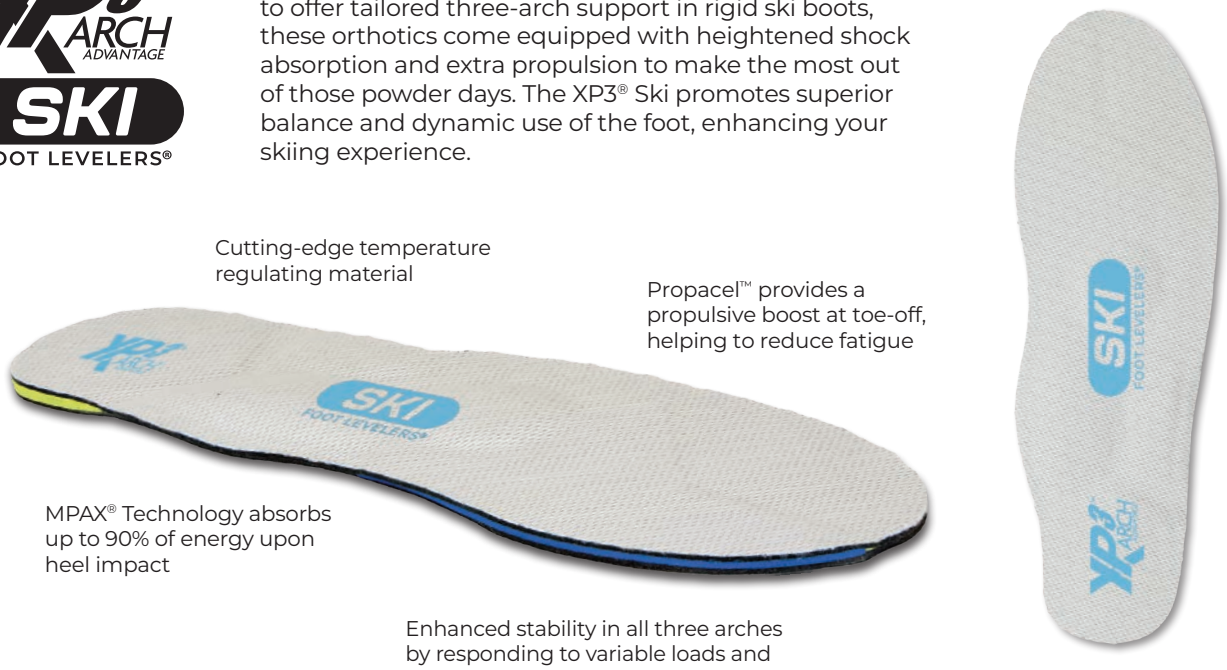

StanceGuard provides full foot support, flexibility, and control at mid-stance

MPAX® Pro Technology maximizes rebound for increased stride distance and saves energy at toe-off

ITEM 0910714

XP3 ARCH ADVANTAGE SKI FOOT LEVELERS®

Conquer the slopes with the XP3® Ski! Specially designed to offer tailored three-arch support in rigid ski boots, these orthotics come equipped with heightened shock absorption and extra propulsion to make the most out of those powder days. The XP3® Ski promotes superior balance and dynamic use of the foot, enhancing your skiing experience.

DRS Dynamic Response System™

ITEM 0910715

Recovery is critical to maintain your optimal performance. The XP3® Recover slide is designed to foster complete support while providing dynamic kinetic chain stability. Wear them immediately after competition and training to relieve biomechanical stress and restore full function.

What Orthotics Do For Your **Body**

Foot Levelers custom orthotics were developed to improve your posture and overall comfort level. When your feet are stabilized, the rest of your body is in balance. In addition to comfort, custom orthotics also help reduce back pain, hip pain, and even neck pain. Learn more about each of these conditions and how Foot Levelers can help you live a pain-free lifestyle.

There are many possible reasons for **back pain**, but spinal strain and postural fatigue account for about **70%** of cases not caused by more serious conditions.

BACK PAIN

The sacroiliac (or SI) joints are the link between your spinal column and pelvis. They help absorb damaging shock forces, and they also help stabilize the body and transmit weight to the lower limbs.

SACROILIAC JOINT PAIN

There is no single cause for painful knee joints. But there are generally 2 types of contributing factors: traumatic and a condition that exists, which is chronic. Your doctor will help determine the cause of your knee pain.

KNEE PAIN

Leg length inequality (LLI) can cause pressure, stress, and pain in your knees, thighs, hips, pelvis, and spine.

SHORT LEG

What Orthotics Do For Your **Feet**

The pain you feel in your feet is debilitating and prevents you from living life to its fullest. Foot Levelers custom orthotics offer relief from some of the most common foot conditions, including plantar fasciitis and metatarsalgia. Foot Levelers orthotics are a great solution if you're experiencing foot pain.

When the foot's arches collapse, they no longer support the body properly. Pronated, or flat feet are also less shock-absorbent, creating extra stress on the bones, muscles, ligaments, and tendons of the entire body.

FLAT FEET

The plantar fascia is the soft, springy tissue on the underside of the foot. With injury, wear-and-tear, or age, a painful, ongoing condition may result: plantar fasciitis.

PLANTAR FASCIITIS

Metatarsalgia is pain in the ball of the foot. The soft, springy tissue beneath the foot is the support system for bones. With injury, wear-and-tear, or age, tissue deteriorates. Arches flatten, and toes may begin to crowd one another.

METATARSALGIA

If your ankle frequently "gives way" while walking or during activity, or if you've suffered from multiple sprains, you may have chronic ankle instability.

CHRONIC ANKLE INSTABILITY

Custom-Made vs.
Over-the-Counter Orthotics

Custom orthotics are far superior to generic or off-the-shelf inserts. They're custom-made to easily slide into your shoes and support the unique shape of your feet. Foot Levelers custom orthotics are unique because they support all three arches of the foot. By balancing the feet, Foot Levelers orthotics help reduce pain and improve performance throughout the body.
